

AI Roast Generator - AI Prompts

Main Prompt Used:

Write a beginner-friendly C++ console program called "AI Roast Generator".

Requirements:

- Ask the user to enter their name.
- Store at least 10 funny roast templates in a vector.
- Use random selection so different roasts appear every time the program runs.
- Replace the placeholder {name} with the entered name.
- Display one random roast.
- Use beginner-friendly C++ concepts.
- Add comments for understanding.
- Use `srand(time(0))` for randomness.
- Ensure the program handles input correctly.

Bug Fixing Prompt:

In my C++ roast generator program, the placeholder {name} is not being replaced with the user's input.

I used:

```
roast.replace(position, 6, name);
```

Please explain how to correctly replace the placeholder in beginner-friendly language.
